27 May 2011

Dear Gerald

We at Eros School would like to thank Constellation Computers for the excellent service rendered here as part of the WCED initiative to install Software in the computer lab.

We were astounded with the efficiency of the process and the aftercare service that has been offered.

Your company responded immediately to our request, arrived within two days to do the installation and even sourced information for us that we requested. We were also contacted after two weeks to ensure that we were satisfied with the software and if we needed any further support.

We deal with many companies, and yours is by far the most impressive. We look forward to a long and prosperous relationship.

Warm regards

R Salie
